MESSAGE FROM CHAIRMAN

I thank Allah the Lord of the worlds and May Allah raise the rank of our Master Muhammad peace be upon him and protect his nation from that which he feared for it.

2013 was a year filled with massive improvements in the area of technology. New technologies have been introduced to our every-day school life such as iPads, software programs and social educational networking. This is to keep our schools at par with schools of the 21st Century ensuring that our students are not falling behind in the areas of technology in a world that seems increasingly dependent on it.

Our 2013 academic achievements can be summed up in noticeable improvements in literacy and numeracy especially in the areas of text types, and Number Patterns and Algebra. At Al Amanah College our approach to student behaviour is positive and the focus is on “values” and teaching the students to take responsibility for their own actions. The support received from parents and friends is valued and relied on for continued growth and improved achievement. However, our job is not done yet and our goals have not been fully met. We recognise that we have a long way to go before we realise the vision that we set for our community.

The high standards set by Al Amanah College were reflected in the commitment to curriculum excellence with the enhancement of extra – curricular Arabic and Islamic programs. High quality teaching standards this year ties with the standard of achievement revealed in the student results. I am delighted to see our students perform well and congratulate them on their success, an outcome which in principle is a way of life we aspire to at Al Amanah College and one which is deeply rooted in our Mission Statement: "The achievement of academic excellence in a caring environment that is founded on Islamic belief and behaviour”.

I would like to conclude by thanking all staff, students, parents and friends in the community education sector for their work, support and advice through which we come to enjoy the beautiful reality of our school.

Dr Ghayath Alshelh

Chairman

VALUE ADDED INFORMATION

Quality teaching and constant learning for both teachers and students has been the main aim of the school. Two main goals were implemented across the school in 2013. These were to implement the school's discipline system of RBM and to fully equip the school with ICT learning.

The school's RBM system is a proactive approach on a whole school level that minimises behavior issues. Welfare officers oversee the implementation of different programs that include targeted social skills, motivational seminars, and a buddy mentoring program. Students have the resources and tools necessary to ensure their welfare. The RBM system was successfully communicated at a whole school level as well as a community level.

The ICT within the school was implemented in 2013 with constant improvement and review to continue well into the future. Not only are all classrooms equipped with Interactive Whiteboards, but many teachers are facilitating student learning through the use of the online learning system "Moodle" and other electronic devices such as iPads and laptops. Teachers are trained on a regular basis in the use of technology in the classroom.

Self-esteem activities are carried out by individual classroom teachers, staff and community at appropriate levels. Therefore at Al Amanah College all staff members are informed of their legal responsibilities for the care, safety and welfare of the students and they are committed to the welfare of our students through the provision of policies in the areas of:

Student Discipline Policy

At Al Amanah College we believe that a stimulating and positive learning environment will encourage good behaviour by the students. Our Restorative Behaviour Management (RBM) program promotes conflict resolution and encourages students to practice self-discipline which involves responsibility, self-monitoring and students analysing inappropriate behaviour and coming up with solutions.

Our aim is to focus on positive behaviour rather than inappropriate behaviour by rewarding students with merit awards, class incentives, excursions and fun days. We believe it is more effective for students to evaluate their own behaviour by using the school behaviour expectations matrix.

SCHOOL RULES/DISCIPLINE CODE

We have designed Restorative Behaviour Management (RBM) which has been implemented in the classroom and the playground. The school behaviour expectations matrix will be displayed in the classrooms, office and the hallways. Parents will obtain a copy of the discipline policy and the Restorative Behaviour Management (RBM).

Corporal punishment is prohibited at Al Amanah College. Any form of physical punishment such as hitting of any kind, emotional such as mocking, degrading and humiliating is prohibited as well. The School prohibits corporal punishment and clearly and exhaustively has listed the proposed School's discipline methods so as to plainly exclude corporal punishment. Al Amanah College does not explicitly or implicitly sanction the administering of corporal punishment by non-School persons, including parents, to enforce discipline at the School.

The school's policies on student's discipline are provided in the Staff Handbook. An appropriate outline of the policy and processes is also provided in the Parent information booklet and the student diary.

GIFTED AND TALENTED STUDENTS POLICY

This policy aims to identify gifted and talented students and to maximise their learning outcomes at Al Amanah College.

Students identified as ‘gifted and talented’ must know that the College values their special ability or abilities and will encourage them to pursue new challenges. Teaching, stimulating and facilitating the development of enriching programs which enable students to develop “to the edge of their ability” will help them reach their potential and maintain their enthusiasm for lifelong growth.

The College will endeavour to provide appropriate support for gifted students as resources permit, taking into account the social, emotional and educational well-being of the students concerned. Families must also recognise their role and responsibility in catering for their gifted children and work cooperatively with the school to provide suitably enriching programs for their children.

At any stage of the planning, development and implementation of a policy for gifted and talented students there should be evaluation of:

- the policy
- school management plans
- faculty plans
- teacher programs and strategies
- student experience and outcomes

Complaints and Grievances Resolution Policy

Al Amanah College values the feedback it receives from staff, parents, the students and the community. Responding to both affirmative and negative feedback demonstrates the School’s commitment to open communication with the School community and general public. Complaints about any aspect of the School's operations, service or personnel will be handled responsively, openly and in a timely manner, with the aim of resolving any complaint via an articulated process and respecting the confidential nature of such matters. Complaints are treated as constructive suggestions that may be used to improve standards and may prevent cause for further complaint.

The school's policies on student's discipline are provided in the Staff Handbook. An appropriate outline of the policy and processes is also provided in the Parent information booklet and the student diary.

RESPECT AND RESPONSIBILITY

The culture at Al Amanah College is marked by respectful relationships, with each individual taking responsibility for his or her own actions. Many activities within the school foster civic responsibility and give students the opportunity to contribute to the local community and wider society. A wide range of social activities were developed to promote respect and responsibility in students. Al Amanah College asks all students to recognise that they are valued and that they form an integral part of the school community, with parents and staff providing the care and support that engender self-esteem, mutual respect and responsibility. Being an Islamic school, Al Amanah College takes seriously its requirement to develop pro-social skills within its students, including the development of respect and responsibility.

A clear anti-bullying policy is well promoted within the school through various posters and other written and graphical materials. It is summarised in every student's school diary. When bullies and their victims are identified, appropriate counselling and sanctions are used. Respect and responsibility are typical qualities which are embedded in the teaching of Islamic values such as fairness, honesty, compassion, courtesy and good citizenship to develop positive and productive attitudes that young people need.

PARENT, STUDENT AND TEACHER SATISFACTION

Al Amanah College has an "open door policy" with parent involvement welcomed. The college strives to maintain and strengthen links with parents and the community, sharing educational and social responsibilities. The school relationship with parents is very productive meeting many objectives due to a close understanding of their concern. Working together in partnership with parents and the community to identify the needs and the priorities helped the school to plan for a better future. The level of parents' involvement in the school activities is high, discussion with parents throughout the year indicated that parent satisfaction is extremely positive.

The school treats students and others with professionalism and fairness empowering them with positive attitudes, catering for their needs, stimulating and inspiring them while maintaining order and discipline in their proper perspective. The key issue is to maintain the vision and build a good rapport with students with firm and positive attitude. Al Amanah

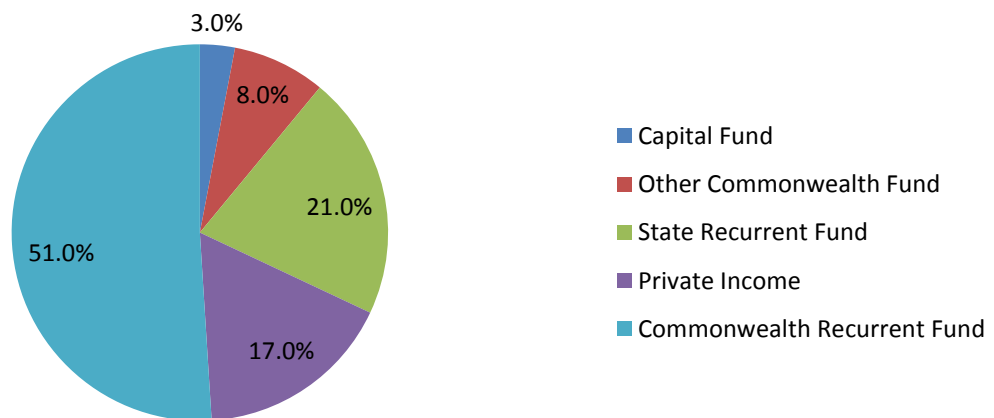

College operates a Peer Support program which provides the students with opportunities to develop skills for life, resilience, effective communication, risk-taking and conflict resolution. In 2013 throughout many school activities Al Amanah College has continued to collect data from the students and the data showed high level of student satisfaction that they felt safe and happy.

Al Amanah College works with people and through people to achieve goals that are consistent with the generalized belief system to which the school community has contributed. The level of commitment is generally related to the degree of contribution. Success and effectiveness of the school depends on the quality, commitment and performance of the staff. The school continues to employ suitable and quality staff, recognizing quality individuals whose enthusiasm for school oriented tasks is very crucial. However an induction program for new staff with a planned professional development program is in place to enhance and further develop staff skills. It is obvious that the school management focused on raising the level of staff commitment by increasing their level of motivation, involvement and satisfaction. Thus in times of limited resources, commitment will depend on involving staff to ensure that causes of dissatisfaction are removed and that opportunities for satisfaction are increased. Informal feedback from teachers and discussions with the Curriculum Coordinators indicates that during 2013 staff were generally very satisfied in all areas of our school.

SUMMARY FINANCIAL INFORMATION

The board of Al Amanah has adopted sound principles of corporate governance to guide its work and to ensure the long term strength and viability of the school. Al Amanah has extensively planned and prioritised the expenditure in relation to building project, equipment, maintenance, office procedures and fixed asset purchases. The school is committed to a responsive and accountable management system. Cost analysis will be ongoing in a number of other areas including utilities, capital acquisitions, security and general purchasing. The following financial information represented by graphical representation using percentages of income and expenditure recapitulate the financial status of Al Amanah College in 2013.
